## Summary

---

Aspiring Data Analyst with hands-on experience in Python, SQL, Excel, and Power BI. Passionate about transforming raw data into actionable insights. Currently pursuing a BSc in Computer Science with coursework in Python, C, C++, and data analysis. Eager to apply analytical and technical skills in a real-world environment through an internship or project role.

## Practical Experience

---

- **Sales Data Analysis with Excel** – Cleaned raw sales data, used Pivot Tables and formulas to analyze monthly performance.
- **Student Performance Analysis with Python** – Applied Pandas & NumPy for data cleaning, summary statistics, and insights.
- **SQL Data Analysis Project** – Wrote queries using SELECT, WHERE, GROUP BY, and JOIN to extract insights from relational databases.

## Skills

---

### Data Analysis Tools

Excel, SQL, Power BI

### Programming

Python (Pandas, NumPy), C, C++

### Version Control

Git, GitHub

## Education

---

### Bachelor of Science in Computer Science

University of Liberal Arts Bangladesh (ULAB)
